

Gel Sealed HEPA Filter

Frame material	Aluminum alloy
Filter media	Ultra-fine glass fiber
Sealant	Gel sealant
Separator	Hot-melt adhesive
Protective mesh	Powder-coated steel grid, white
Efficiency rating	99.97 %, 99.99 %, 99.999 % (MPPS)
Temperature resistance	≤ 80 °C
Humidity resistance	≤ 100 % RH

Product Features

- Separator-free design cuts airflow resistance and energy use, lowering operating costs
- Compact and stackable for a wide range of applications, it saves valuable warehouse space
- Ultra-slim profile reduces the space required for installation

Initial Resistance vs. Airflow Curve
